Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-19 (cancelled).

- 20. (currently amended) A reactor for pyrolytic conversion of biomass material into charcoal and gas comprising, a housing having a proximal end, a distal end and a sealable opening for receiving a removable canister containing said material;
 - a heater at said distal end located within said housing;
- a first valved gas exit orifice at the proximal end of said housing; a second valved gas exit orifice at the distal end of said housing;
 - a valved air entry orifice for introducing air to the proximal end of said canister; insulation surrounding at least a portion of the sides of the canister;
- said canister being receivable in said housing such that there is minimal exposure of the contents of said canister to the atmosphere when said sealable opening is open.
- 21. (currently amended) A reactor according to claim 20 wherein said heater comprises a resistance heater located to heat the biomass material in the distal end of said canister.
- 22. (original) A reactor according to claim 20 further comprising an exterior burner communicating with said second valved gas exit.
- 23. (original) A reactor according to claim 20 wherein said valved entry orifice comprises a tube passing through the distal end of said housing and having an open end at the proximal end of said canister.
- 24. (original) A reactor according to claim 20 wherein said housing is vertically positioned so that said proximal end is at the top and said distal end is at the bottom.
